

## Product information

### **Wefapress ST 6000<sup>®</sup> GB** (DIN 16972 TG 1)

ST 6000<sup>®</sup> GB is an ultrahigh molecular weight low pressure polyethylene with a molecular weight of approx. 6 million g/mol. By using specially selected additives it is possible to enhance and customise the properties of the ST 1000<sup>®</sup> material. ST 6000<sup>®</sup> GB possesses an increased wear resistance compared to the normal standard types. The characteristics of ST 6000<sup>®</sup> GB are as follows:

- highest wear resistance and enhanced sliding properties
- high bending- and impact strength
- no moisture absorption
- high chemical resistance

Standard colours: grey-blue  
Special colours: --  
Form of delivery: sheets, rods (pressed)  
(catalogue semi finished products)

Finished parts: on request

Fields of application:

- chemical industry
- food industry
- mechanical engineering
- transport- and conveyor systems

## Technical Data Sheet

Material designation	<b>ST 6000<sup>®</sup> GB</b>		
Raw material	PE-UHMW		
Material colour(s)	grey-blue		
<b>Properties</b>	Unit	Test method	Value
Molecular weight (average molar mass)	g/mol		~ 6 * 10 <sup>6</sup>
<b>Mechanical properties</b>			
Density	g/cm <sup>3</sup>	DIN 53479	0.94
Shore D hardness, 15s	D scale	DIN 53505	66
Ball indentation hardness, 30s	N/mm <sup>2</sup>	DIN ISO 2039 part 1	43
Elongation at break	%	DIN ISO / R 527	600
Notched impact strength (Charpy)	kJ/m <sup>2</sup>	DIN 53453	without break
Abrasion	%	Sand slurry method	85
<b>Thermal properties</b>			
Crystallite melting range	°C	DTA	135/138
Coefficient of linear expansion at 23°C	K <sup>-1</sup>	DIN 53752	1.8*10 <sup>-4</sup>
Application temperature (min.)	°C		-269°
Application temperature (constant)	°C		80°
Application temperature (max.)	°C		100°
<b>Electrical properties</b>			
Volume resistivity	Ω cm	DIN 53482	<10 <sup>16</sup>
Surface resistance	Ω	DIN 53482	<10 <sup>14</sup>
Dielectric strength	kV/mm	DIN 53481	90

Notes for the user:

Data sheet specifications are made to our today's knowledge. This information does not mean that certain properties are agreed upon or assured. Whether or not a material is suitable for a given application is the user's decision. All specifications are subject to change.
